

SPACE COAST CHAPTER

2024 SPONSORSHIP PROSPECTUS

AFCEA SPACE COAST CHAPTER

AFCEA Space Coast Chapter Sponsorship Prospectus

As one of the newest and fastest growing chapters in AFCEA International, the Space Coast Chapter has become highly visible within the local and national AFCEA International portfolio.

Our chapter serves as a base for supporting aerospace and defense programs across a wide variety of missions and organizations, including tenants at Patrick Space Force Base, NASA Kennedy Space Flight Center, state and local agencies that are in our vast area. High-level government speakers are invited as speakers to our events to talk about the challenges and realities at the federal, state, and local government – for defense, civil programs and the aerospace and defense industry at large.

This emerging chapter is incredibly active, hosting a variety of events each month, partnering with small business accelerators and other professional groups in our area. Our monthly networking events and Lunch, Learn, and Earn sessions connect companies with government speakers that share insight and guidance from current policies as well as future program technology content with relevant business connections to connect your goals to their objectives.

Proceeds from chapter events facilitate our events as well as our Scholarship fund. The Space Coast Chapter is actively involved with leadership development and STEM. We have teamed with local middle schools, high schools, and universities, and plan on awarding substantive scholarships and educational grants to continue enabling STEM education throughout the Space Coast community.

Our sponsorship opportunities provide sponsors with a marketing advantage to directly reach government and military agencies as well as members of industry. Sponsorships help connect your company through our events and amplify your visibility through our digital channels.

All sponsorship levels include an invitation to our exclusive Sponsorship Appreciation event, and Sponsorship planning meetings.

Thank you for considering sponsorship through our chapter. We look forward to providing you with an intimate setting as a sponsor, giving you an opportunity to experience high-quality networking with other company executives, government VIPs, and chapter leaders.
